DETAILED ACTION

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 2, 5, 8, 9-10, 11,12-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 5, 11, and 16 are indefinite because the use of the term "when" obscures the actual limitations present in the claims. Also, the use of different embodiments of a "disk-type color wheel" and a "barrel type color wheel" in this format is indefinite. These limitations should be presented in separate dependent claims or in an acceptable alternate format claim.

Claims 2, 8, 14 are indefinite because the statement "ratios among the filter devices are selectively the same" does not appear to be accurate. Such statement implies that a ratio of area of a colored portion to a white portion is the same for each filter device, for example blue/white, green/white, red/white. As seen in the figures this is not true. Please amend or clarify.

3. Claims 1, 3-4, 6-7 are allowed.

4. Claim 5 is would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

- 5. Claims 2, 8-16 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
